

Framed Print Suppliers for Australia

A practical comparison of companies that can print & frame your photos for sale to Australian customers — oak / natural wood, black, white, glass vs acrylic — with cost, lead time, shipping and which support white-label dropship for manual fulfilment now and automation later.

Companion to the Excel workbook (same data, sortable) and the *Online Shop — End-to-End Setup Plan*.
Compiled June 2026 · all prices AUD, indicative — confirm with a quote before setting retail prices.
FX used: £1 = A\$1.90 · US\$1 = A\$1.41 · €1 = A\$1.64.

The short version

1 • Manual now, auto later. Pick a **white-label dropship** supplier so the printer ships straight to your customer in your branding. You place each order by hand per sale today; the same suppliers expose an API to automate once volume justifies it.

2 • Best all-round launch pick — Prodigy. Prints in **Australia**, offers oak / black / white (+ more), perspex / glass / anti-reflective glazing, giclée quality, ~72h turnaround, full white-label, one-off ordering now + API later. Per-size price sits behind a free signup (“from ~\$30”).

3 • Best AU fine-art + white-label — Pixel Perfect Prolab (Sydney) & Lucent Imaging (Canberra). True giclée, premium frame + glazing choices, branded packaging / certificates, explicit dropship. Pricing is quote-based — a 10-minute email gets you the grid.

4 • Glass vs acrylic. Real glass looks best but cracks in transit and ships dear. Use **acrylic (perspex)** for anything posted; reserve real glass for local pickup or a premium tier. Your shop already says “solid oak ... ships worldwide” — acrylic makes that safe.

5 • Sanity-check your prices. Current /shop: A3 \$160 · A2 \$260 · A1 \$390 (oak). Once you add real framed + shipping cost, **A1 especially can get thin** — aim for ~2.5–3× landed cost (see Pricing & Margin).

6 • Mind the overseas trap. theprintspace (UK) and WhiteWall (Germany) are the highest quality, but framed shipping to AU is ~\$140–\$180 (theprintspace) or duty-exposed (WhiteWall). Great for an occasional premium piece, not your default.

My shortlist — 6 to start with

Ranked for premium oak-framed editions · Australian customers · manual fulfilment now, automation later · sensible cost.

1 · Prodigy — default shop engine

AU-made white-label + API giclée

Oak/natural, black, white (+grey/silver/gold); perspex, glass or anti-reflective. ~72h production, one-off ordering now, automatable later.

Cost: from ~\$30 base (per-size behind a free login). The most “shop-ready” option for AU.

2 · Pixel Perfect Prolab — Sydney — premium AU tier

AU fine-art full white-label POD

True giclée + bespoke framing (black/white/natural/teak/silver/raw + premium); 2mm glass, Artglass AR, non-reflective or acrylic. Branded box + certificate of authenticity, 2–3 day production, ~\$50 ship. **Cost:** quote (PDF pricelist).

3 · Lucent Imaging — Canberra — premium native-timber

AU fine-art dropship +\$5 white-label

Canson/Hahnemühle-certified giclée, Tasmanian Blackwood & Victorian Ash frames, standard or AR70 glass. Explicit unbranded dropship.

Cost: quote (per m²); print dropship \$14.50–\$27, framed higher.

4 · Atkins Lab — Adelaide — if you use a gallery platform

established lab ShootProof/Pixieset/Pic-Time

Tasmanian oak, aged oak, walnut, ash, satin white/black + more; acrylic w/ UV; silver-halide or fine-art pigment. Dropship via proofing platforms. **Cost (public):** framed packages ~\$187 (A3) – \$483; ship \$30–\$55.

5 · Curated Frames — lower-cost quality tier

AU real glass archival

Archival Epson UltraChrome Pro, clean oak / white / black, real glass — at consumer prices. **Cost:** from \$120 (paper), panoramic from \$165; free ship over \$150 else \$15 flat. One-off online (no formal white-label).

6 · Frame Today — reliable mid option / A1 value

AU-made real glass A-series

Oak / black / white classic wood, real glass + matboard, true A-series, 3–5 day turnaround. **Cost:** A3 \$139–\$149 · A2 \$179–\$189 · A1 \$219. One-off online.

Also worth knowing

- **WhiteWall (Germany)** — top-tier quality + 100+ frames incl. museum glass; ships to AU; B2B reseller programme. For occasional high-end pieces (watch duties/shipping).
- **Image Science / CPL / Matte Image (Melbourne)** — superb giclée but **print only (no frames)**. Pair with a framer, or use for unframed/rolled prints. Matte Image is the cheapest quality giclée.
- **Officeworks / Big W Photos** — cheapest complete framed option (oak/black/white, acrylic) but consumer-grade paper. Fine for a proof of concept, not premium editions.
- **theprintspace (UK)** — beautiful giclée/C-type + widest frames, but AU shipping ~\$141 (A3)–\$182 (A2). Not viable as default.

All suppliers — full field

strong fit usable, caveats not viable for AU framed dropship

Supplier	Type / made	Frames	Glazing	Quality	Framed price (AUD, indic.)	Dropship / one-off	Best for
Prodigi	POD · AU-made	Oak, black, white +grey/silver/gold	Perspex, glass, anti-reflective	Giclée	from ~\$30 base (login)	Full white-label + API; one-off	Default shop engine, automatable

Framed cost by size vs your shop prices

Your /shop sells oak-framed at **A3 \$160 · A2 \$260 · A1 \$390**. Below = indicative supplier cost (what you pay). Margin = retail – cost, before card fees (~1.75%+30c) and your postage.

Supplier	A3 cost	A2 cost	A1 / ~50–70cm	Glazing	Margin @ your prices
Prodigi*	~\$45–70	~\$70–110	~\$110–160	Acrylic/glass	Healthy if base holds (~\$90/\$160/\$240)
Frame Today	\$139–149	\$179–189	\$219 (A1)	Real glass	~\$15 / ~\$75 / ~\$171
Curated Frames	from \$120	from \$120	\$165 (pano)	Real glass	~\$40 / ~\$140 / ~\$225
Officeworks / Big W	\$139	\$159	\$249	Acrylic	~\$21 / ~\$101 / ~\$141 (consumer)
Atkins Lab (matted pkg)	\$187	\$296	\$341	Acrylic UV	Negative at A2/A3 — reprice
theprintspace (landed AU)	frame+print+~\$141 ship	+~\$182 ship	—	Real glass	Negative — shipping unviable
Pixel Perfect / Lucent / Fitzgerald	Quote — premium tier, expect mid cost			Glass/AR/acrylic	Get a quote for your sizes

- * Prodigi per-size needs a free account; ranges are typical for AU-produced giclée framed prints — verify before pricing.
- Rule of thumb:** retail ≈ 2.5–3× landed cost (supplier + postage + card fee) → ~60–67% gross margin.
- A1 is the squeeze point:** at \$390 you want landed cost under ~\$150. Frame Today & Prodigi work; matted-package labs don't at that price.
- Keeping real glass? Offer “local pickup / Sydney delivery” for glass and post acrylic only — or raise A1 to ~\$450–\$490 to cover glass + freight + breakage.

Sources & verification notes for every figure are in the Excel workbook (“Sources & Caveats” tab). All prices indicative — get one real quote (incl. postage) for A3/A2/A1 in each finish before setting retail prices.
